

# The Chemical Age

Index to Volume LXVI

OHIO STATE  
UNIVERSITY  
January to June, 1952  
SEP 15 1952

|  |               |
|--|---------------|
| <b>A</b>   |               |
| ERAC Price Changes .....                           | 418           |
| Invasive Industry, Italian .....                   | 905           |
| Accidents in 1951, Fatal Industrial .....          | 284           |
| Accidents and Industrial Diseases Report .....     | 341           |
| Accident Prevention Conference .....               | 146, 367      |
| Accident Prevention Guide, Royal Society .....     | 391           |
| Asbestos Import Duties .....                       | 355           |
| Beryl Peroxide (Buffalo Electro-Chemical) .....    | 33            |
| Chemica X Report .....                             | 901           |
| Acids and Bases .....                              | 246           |
| CTH Production, Australian .....                   | 283           |
| Adams, R. W. .....                                 | 315           |
| Additives and Public Health .....                  | 15            |
| Adhesion Agent, New .....                          | 754           |
| Advisory Council on Scientific Policy Report ..... | 849, 879      |
| Agene In Bread .....                               | 464, 564      |
| Agricultural Industries Annual Meeting .....       | 164           |
| Agrochane's Chemical Weed-Killer .....             | 295           |
| Control Products .....                             | 422           |
| Air Pollution Abatement .....                      | 412           |
| Alers, Sir Wallace .....                           | 219           |
| Alcohols Prevent Snowstorms .....                  | 258           |
| Alirin—Sole Rights Bought by Shell .....           | 174           |
| Alpicide, New U.S. Product .....                   | 497           |
| Alpa, Nitrogen-Fixing .....                        | 714           |
| Alkaline Earths, Analytical Chemistry of .....     | 923, 969      |
| Alkaline Products, Colombia Manufacturing .....    | 313           |
| Alkylation Processes, New Aspects of .....         | 789           |
| Alloys, High Temperature .....                     | 283           |
| Alloy Metals Review .....                          | 181, 556      |
| Alloy Steel Supplies .....                         | 592           |
| Alcohol 79 (Shell) .....                           | 337           |
| Aluminum Development Association's Bulletin .....  | 356           |
| Aluminium, Photographs on .....                    | 590           |
| Aluminium Plant, New Yugoslavian .....             | 25            |
| Aluminium Polisher, New Italian .....              | 498           |
| Aluminium Production in British Colombia .....     | 388           |
| Aluminium Project in Canada .....                  | 388           |
| Aluminium Reduction Plant, New U.S. .....          | 327, 337, 669 |
| American Chemical Industry .....                   | 709           |
| American Chemical Society .....                    | 274           |
| Aminosulph—New Cancer Inhibitor .....              | 453           |
| Ammonia Factory, South African .....               | 388           |
| Ammonia Plant, New Brazilian Synthetic .....       | 309           |
| Ammonium Sulphate Demand .....                     | 147           |
| Ammonium Sulphate Factory, Indian .....            | 984           |
| Ammonium Sulphate Plant, Portuguese .....          | 725, 749      |
| Analytical Chemistry, Developments in .....        | 244, 904      |
| Analytical Indicators, New .....                   | 4             |
| Analytical Procedure, Trends in .....              | 61            |
| Anhydride Plant at Whitehaven, Marchon's .....     | 825           |
| Antibiotic, New .....                              | 826           |
| Anticyde .....                                     | 592           |
| Apkleton, Sir Edward .....                         | 315           |
| Applied Chemistry, Annual Reports on .....         | 735           |
| APV Presentations .....                            | 387           |
| Armfield, W. .....                                 | 516           |
| Asbestos in Venezuela .....                        | 127           |
| CLIB Conference .....                              | 775           |
| Atabasca Oil Sands .....                           | 315           |
| Akins, W. S. .....                                 | 313, 482      |
| Atomic Energy of Canada, Ltd. .....                | 167           |
| Atomic Pile, First Indian .....                    | 533           |
| Atrofing Process .....                             |               |

|                                 |     |
